## Alina Bucur

Associate Professor of Mathematics

Research Areas    Number Theory  
                         Automorphic Forms  
                         Metaplectic Forms  
                         Kac-Moody Algebras  
                         Coxeter Groups

Office Location    AP&M 7131  
Direct Phone        (858) 534-2125  
Direct Fax          (858) 534-5273  
Email                abucur@ucsd.edu  
Website              <http://www.math.ucsd.edu/~abucur/>

### Professional Biography

Alina Bucur received her Ph.D. from Brown University in 2006, and has since held a postdoctoral fellowship at the Institute for Advanced Study and a Moore Instructorship at MIT. Bucur's research is in analytic number theory, specifically in multiple Dirichlet series and moments of L-functions.

### Education

- Ph.D. Mathematics, Brown University, 2006

### Awards and Distinctions

- FRG Research Grant by NSF
- Hellman Fellowship

### Professional Memberships

- American Mathematical Society (AMS)
- Association for Women in Mathematics (AWM)
