Are proud to present our 8th*

## **Alumni Career Seminar**

**November 8<sup>th</sup>, 2001**

**4:00-5:00pm**

**Applied Physics & Math 2402**

*The UCSD alumni below will be speaking about their educational and career background and their current employment. Come hear about the twists and turns our alumni have taken en route to their current exciting careers! The seminar also allows time for speakers to answer your questions.*

Our speakers' varied career experiences include satellite motion and detection algorithms, system integration, mathematical model simulation, digital signal processing, programming, research, communications and surveillance systems, statistics and stochastic processes, sonar signal processing, physics and numerical PDE.

### **Lois Yu**

Systems Architect & Operations Coordinator – RAM Labs  
BA in Applied Mathematics - **UCSD 1993**  
BA in Chinese Studies - **UCSD 1993**  
MS in Statistics – **UCSD 1995**  
MS in Earth Sciences – **UCSD 1995**

### **Stephen Hobbs**

Scientist – Space and Naval Warfare Systems Center (SPAWAR)  
BA in Mathematics & Biology – **Point Loma College 1977**  
MS in Applied Mathematics – **UCSD 1979**  
PhD in Mathematics – **UCSD 1985**
