

MATHEMATICAL RESEARCH LETTERS  
CONTENTS

Volume 11, Number 1

January 2004

---

<b>Árpád Bényi and Rodolfo H. Torres</b> , <i>Almost orthogonality and a class of bounded bilinear pseudodifferential operators</i> .....	1
<b>Paolo Lisca</b> , <i>On lens spaces and their symplectic fillings</i> .....	13
<b>A. Tumanov</b> , <i>A morera type theorem in the strip</i> .....	23
<b>Petri Juutinen and Peter Lindqvist</b> , <i>A theorem of Radó's type for the solutions of a quasi-linear equation</i> .....	31
<b>Augustin-Liviu Mare</b> , <i>Relations in the quantum cohomology ring of <math>G/B</math></i> .....	35
<b>S.M. Gusein-Zade, I. Luengo and A. Melle-Hernández</b> , <i>A power structure over the Grothendieck ring of varieties</i> .....	49
<b>Yi-Jing Xu and Stephen S.-T. Yau</b> , <i>Lower estimate of multiplicity of isolated complete intersection singularities with applications in weakly elliptic singularities</i> .....	59
<b>Yiu-Ming Lo</b> , <i>A vanishing theorem on manifolds of positive spectrum</i> .....	73
<b>Sanghyuk Lee</b> , <i>Endpoint <math>L^p</math>-<math>L^q</math> estimates for some classes of degenerate Radon transforms in <math>\mathbb{R}^2</math></i> .....	85
<b>Pavel Etingof and Viktor Ostrik</b> , <i>Module categories over representations of <math>SL_q(2)</math> and graphs</i> .....	103
<b>Jordi Guàrdia</b> , <i>Jacobi Thetanullwerte, periods of elliptic curves and minimal equations</i> .....	115
<b>Frank Calegari and Matthew Emerton</b> , <i>The Hecke algebra <math>T_k</math> has large index</i> .....	125
