

MATHEMATICAL RESEARCH LETTERS

CONTENTS

Volume 8, Number 5-6

November 2001

---

<b>Gregory F. Lawler, Oded Schramm, and Wendelin Werner</b> , <i>The Dimension of the Planar Brownian Frontier is <math>4/3</math></i> .....	401
<b>Andrew Hassel and András Vasy</b> , <i>Intersecting Legendrians and blow-ups</i> .....	413
<b>Yuri G. Zarhin</b> , <i>Hyperelliptic jacobians without complex multiplication in positive characteristic</i> .....	429
<b>Fred Diamond, Matthias Flach, and Li Guo</b> , <i>The Bloch-Kato conjecture for adjoint motives of modular forms</i> .....	437
<b>D. D. Long and A. W. Reid</b> , <i>Constructing hyperbolic manifolds which bound geometrically</i> .....	443
<b>M. Castrillón López and J. Muñoz Masqué</b> , <i>Gauge interpretation of characteristic classes</i> .....	457
<b>Lisa Carbone and Gabriel Rosenberg</b> , <i>Infinite towers of tree lattices</i> .....	469
<b>Neil Dummigan</b> , <i>Congruences of modular forms and Selmer groups</i> .....	479
<b>Akito Futaki and Kenji Tsuboi</b> , <i>Fixed point formula for characters of automorphism groups associated with Kähler classes</i> .....	495
<b>Wulf-Dieter Geyer and Moshe Jarden</b> , <i>Non-PAC fields whose Henselian closures are separably closed</i> .....	509
<b>Zhiwu Lin</b> , <i>Instability of periodic BGK waves</i> .....	521
<b>Paul Glendinning and Nikita Sidorov</b> , <i>Unique representations of real numbers in non-integer bases</i> .....	535
<b>Marius Dadarlat</b> , <i>Residually finite dimensional <math>C^*</math>-algebras and subquotients of the CAR algebra</i> .....	545
<b>Martin R. Bridson</b> , <i>Length functions, curvature and the dimension of discrete groups</i> .....	557
<b>Jürgen Jost and Kang Zuo</b> , <i>Representations of fundamental groups of algebraic manifolds and their restrictions to fibers of a fibration</i> .....	569
<b>Michael Dettweiler, Ulf Kühn, and Stefan Reiter</b> , <i>On Galois representations via Siegel modular forms of genus two</i> .....	577
