

MATHEMATICAL RESEARCH LETTERS

CONTENTS

Volume 9, Number 4

July 2002

S. Ya. Jitomirskaya and I. V. Krasovsky , <i>Continuity of the measure of the spectrum for discrete quasiperiodic operators</i>	413
Min Kyu Kim , <i>A compact symmetric symplectic non-Kaehler manifold: Revisit</i> .	423
John C. Loftin , <i>Affine spheres and Kähler-Einstein metrics</i>	425
Matthew Szczesny , <i>Wakimoto modules for twisted affine Lie algebras</i>	433
Pavel I. Etingof and Adriano A. Moura , <i>On the quantum Kazhdan-Lusztig functor</i>	449
Stevo Todorcevic , <i>Generic absoluteness and the continuum</i>	465
Richard Hain , <i>The rational cohomology ring of the moduli space of abelian 3-folds</i>	473
Bjorn Poonen , <i>The Grothendieck ring of varieties is not a domain</i>	493
C. S. Rajan , <i>On the image and fibres of solvable base change</i>	499
W. Ebeling and S. M. Gusein-Zade , <i>Poincaré series and zeta function of the monodromy of a quasihomogeneous singularity</i>	509
Nets Hawk Katz, Elliot Krop, and Mauro Maggioni , <i>Remarks on the box problem</i>	515
Charles P. Boyer and Krzysztof Galicki , <i>Rational homology 5-spheres with positive Ricci curvature</i>	521
Mao-Pei Tsui and Mu-Tao Wang , <i>A Bernstein type result for special Lagrangian submanifolds</i>	529
J. Rubinstein and G. Wolansky , <i>A class of elliptic equations related to optical design</i>	537
Piotr Koszmider , <i>Universal matrices and strongly unbounded functions</i>	549
Josip Globevnik , <i>Interpolation by proper holomorphic embeddings of the disc into \mathbb{C}^2</i>	567
