(1) The quiz will take place at 10:00am on Friday, October 20.

(2) You must bring a **photo ID** to the quiz, but you do **not** need to bring a blue book.

(3) Students registered in Sections B01-B07 will take the quiz in our usual classroom, Center 101. Students registered in Section B08 will take the quiz in AP&M 6402.

(4) During the quiz, there will be assigned seating. Seat assignments will be posted on the course website on Wednesday, October 18.

(5) During the quiz, you will **not** be able to use a calculator. The quiz is also closed book and closed notes; **unlike the midterm, no cheat sheets are allowed**.

(6) You will have 35 minutes to complete the quiz.

(7) The quiz will consist of **four** problems, taken directly from your homework assignments. In order to generate multiple versions of the quiz, **there may be minor changes to the numbers, but other than that, the problems will be the same as they appear in the textbook**. For this reason, please study the textbook versions since the online versions sometimes incorporate small changes to the wording, etc.

(8) Here are the problems that may appear on the quiz (up to minor changes to the numbers). **These problems are taken directly from the course homework page.**
